1. It was observed during the period from 1 to 13 February 1951, that the former German ammunition depot in Falkenhagen (N 53/V 44) was still occupied by about 500 soldiers, 50 percent wearing black epaulets, the others crimson epaulets. Work on the reconstruction of a ruined building was started on 1 February by about 25 bricklayers from the EWU Firm in Frankfurt/Oder. Source believed that the building is to serve as quarters. Until now this firm has allegedly been contracted only by the Volkspolizei. It was learned from an employee of the Seibolt Firm in Frankfurt/Oder that this firm had to submit an estimate of the cost of the construction of an elevator in an underground bunker. A detail of six men was engaged in setting up telephone poles. The poles stood in a line running approximately from Fuerstenwalde to Wilmersdorf via Falkenberg and terminating at the eastern exit of Petershagen.
